

## SECTION 1: Identification of the substance/mixture and of the company

### 1.1 Product identifier

Identification of the substance or mixture  
Article no. (manufacturer/supplier)  
UFI code

**MT PRIMER**

-

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

### 1.3 Details of the supplier providing the safety data sheet

SOBELTEC nv  
Klein Frankrijkstaart 43 - 9600 Ronse - Belgium T +32 55 230 600  
[info@sobeltec.be](mailto:info@sobeltec.be)

Competent person responsible for the safety data sheet: [info@sobeltec.be](mailto:info@sobeltec.be)

### 1.4 Emergency number

National Poison Information Service (NPIS).  
UK NPIS 0344 892 0111 (24 hour service)  
National Poison Information Center of Ireland (NPIC)  
Beaumont Hospital - PO Box 1297 - Beaumont Road - Dublin 9  
Healthcare Professionals: +353 (01) 809 2566 (24 hour service)

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP]

The mixture is not classified as hazardous according to regulation (EC) No. 1272/2008 [CLP].

### 2.2 Marking Elements

#### Labeling according to Regulation (EC) No. 1272/2008 [CLP]

##### Hazard pictograms

**Hazard statements** not applicable

**Safety instructions** not applicable

**contains:** not applicable

##### Supplemental Hazard Information (EU)

EUH208 Contains 1,2-Benzisothiazol-3(2 H) -one. Can cause allergic reactions.

EUH210 Safety data sheet available on request.

### 2.3 Other hazards

## SECTION 3: Composition / information on ingredients

### 3.1 Chemical characterization: Substances

This product is a mixture

### 3.2 Chemical characterization:

**Description:** Mineral fillers, aqueous polymer dispersion

**Hazardous ingredients :** No hazardous ingredients according to Regulation (EC) No. 1907/2006

### 3.3 Additional Notices

Full text of classifications: see section 16

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

#### General information

If symptoms occur or if in doubt, seek medical advice. If unconscious, do not give anything by mouth, place in recovery position and seek medical advice.

#### **After inhalation**

Remove affected person to fresh air and keep warm and calm. If breathing is irregular or stopped, administer artificial respiration.

#### **after skin contact**

Take off dirty, soaked clothes immediately. After contact with skin, wash immediately with plenty of soap and water. Do not use solvents or thinners.

#### **After eye contact**

Rinse cautiously with water for several minutes. If possible, remove contact lenses. Continue rinsing. Get medical advice immediately.

#### **After swallowing**

If swallowed, rinse mouth with water (only if the casualty is conscious). Get medical advice immediately. Keep those affected calm. DO NOT induce vomiting.

#### **4.2 Most important symptoms and effects, both acute and delayed**

If symptoms occur or if in doubt, seek medical advice.

#### **4.3 Indications of immediate medical attention or special treatment**

### **SECTION 5: Firefighting measures**

#### **5.1 Extinguishing media**

##### **Suitable extinguishing media:**

alcohol-resistant foam, carbon dioxide, powder, spray, (water)

##### **Unsuitable extinguishing media for safety reasons: strong water jet**

#### **5.2 Special hazards arising from the substance or mixture**

Fire will produce dense black smoke. Inhaling hazardous decomposition products can cause serious health problems.

#### **5.3 Advice for firefighters**

Keep breathing apparatus ready. Cool closed containers exposed to fire with water. Do not allow extinguishing water to get into the sewage system, soil or bodies of water.

### **SECTION 6: Accidental release measures**

#### **6.1 Personal precautions, protective equipment and emergency procedures**

Keep away from sources of ignition. Ventilate the affected area. Do not breathe vapors.

#### **6.2 Environmental Protection Measures**

Do not discharge into drains or rivers. In the event of contamination of rivers, lakes or sewers, inform the relevant authorities in accordance with local laws.

#### **6.3 Methods and material for containment and cleaning up**

Isolate spilled material with non-combustible absorbent material (e.g. sand, earth, vermiculite, kieselguhr) and collect it for disposal in accordance with local regulations in the containers provided (see Section 13). Carry out subsequent cleaning with cleaning agents, do not use solvents.

#### **6.4 Reference to other sections Observe protective regulations (see chapters 7 and 8).**

### **SECTION 7: Handling and storage**

#### **7.1 Precautions for safe handling**

##### **advice for safe handling**

No special technical protective measures required. Personal protective equipment, see section. 8.

##### **Hygiene measures**

When using, do not eat, drink or smoke. Wash hands before eating, drinking or smoking.

#### **7.2 Conditions for safe storage, including any incompatibilities**

##### **Requirements for storage rooms and containers**

Close opened containers carefully and store upright. Do not store permanently above 30 °C and protect from direct sunlight. After freezing below 0 °C the material is no longer usable.

#### Advice on storage compatibility

Keep away from strongly acidic and alkaline materials and oxidizing agents.

#### Further information on storage conditions

Notes on the label. to store. Keep container tightly closed. Store containers tightly closed in an upright position to prevent any leakage.

### 7.3 Specific End Uses

Observe the technical data sheet. Follow the instructions.

## SECTION 8: Exposure controls/personal protection

### 8.1 Parameters to monitor

#### Occupational Exposure Limits

not applicable

### 8.2 Exposure controls

#### Limitation and monitoring of exposure at the workplace

#### Respiratory protection

No personal respiratory protection required.

#### Hand protection

For longer or repeated handling the glove material is to be used: NBR ( nitrile rubber ) thickness of the glove material > 0.4 mm; Penetration time (maximum wearing time) > 480 min. The instructions and information from the protective glove manufacturer regarding use, storage, maintenance and replacement must be observed. Penetration time of the glove material depending on the intensity and duration of skin exposure.

Recommended glove brands DIN EN 374 Barrier creams can help to protect exposed areas of the skin. After contact, these should not be used under any circumstances.

#### Eye protection

Wear tightly fitting safety goggles if there is a risk of splashing.

#### Body protection

Wear anti-static clothing made from natural fibers (cotton).

#### Protective measures

After contact, clean skin surfaces thoroughly with soap and water or use a suitable cleaning agent.

#### Limitation and monitoring of environmental exposure

Do not discharge into drains or rivers. See Chapter 7. No additional measures are required.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance:

#### Physical state:

light viscous

#### Colour:

gray (or other colour if metnioned in name)

#### Odour:

characteristic

#### Odor threshold:

not applicable

#### pH value at 20 °C:

8.5

#### Melting point/freezing point:

0 °C

#### Initial boiling point and boiling range:

100 °C (water)

#### Flash point:

not applicable

#### Evaporation rate:

not applicable

#### Flammability (solid, gaseous):

##### Combustion time (s):

not applicable

#### Upper/lower flammability or explosive limits:

##### Lower explosion limits:

not applicable

##### Upper explosion limits:

not applicable

#### Vapor pressure at 20 °C:

23 hPa (water, literature value)

#### Vapor density:

not applicable

<b>Relative density:</b>	
<b>Density at 20 °C :</b>	1.35 g/cm <sup>3</sup> (23 °C)
<b>Solubility(ies):</b>	
<b>Water solubility (g/L) at 20 °C:</b>	miscible
<b>Partitioning coefficient n- octanol /water:</b>	not applicable
<b>Auto-ignition temperature:</b>	not applicable
<b>Decomposition temperature:</b>	not applicable
<b>Viscosity at 20 ° C:</b>	7000 mPas (23 °C)
<b>Explosive properties:</b>	not applicable
<b>Oxidizing properties:</b>	not applicable

## 9.2 Other information

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

### 10.2 Chemical stability

Stable under recommended storage and handling conditions. More information about proper storage: see chapter 7.

### 10.3 Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

### 10.4 Conditions to avoid

Hazardous decomposition products may be formed at high temperatures.

### 10.5 Incompatible Materials

### 10.6 Hazardous decomposition products

At high temperatures, hazardous decomposition products can form, eg: carbon dioxide, carbon monoxide, smoke, nitrogen oxides.

## SECTION 11: Toxicological information

Classification according to Regulation (EC) No. 1272/2008 [CLP] There is no data available on the preparation itself.

### 11.1 Information on toxicological effects

#### Acute toxicity

Toxicological data are not available.

#### skin corrosion/irritation; Serious eye damage/irritation

Toxicological data are not available.

#### Respiratory or skin sensitization

Toxicological data are not available.

#### CMR effects (carcinogenic, mutagenic and toxic for reproduction)

Toxicological data are not available.

#### Specific target organ toxicity

Toxicological data are not available.

#### Aspiration hazard

Toxicological data are not available.

#### Practical experience/in humans

Other observations:

The inhalation of solvents above the AGW value can lead to damage to health, such as irritation of the mucous membranes and respiratory organs, damage to the liver, kidneys and the central nervous system. Signs of this are: headache, dizziness, tiredness, muscle weakness, drowsiness, in severe cases: unconsciousness. Solvents can cause some of the above effects through skin absorption. Prolonged and repeated contact with the product leads to fat loss from the skin and can cause non-allergic contact skin damage (contact dermatitis) and/or pollutant absorption. Splashes may cause eye irritation and reversible damage.

#### Summary evaluation of the CMR properties

The ingredients in this mixture do not meet the criteria for CMR category 1A or 1B according to CLP.

## SECTION 12: Ecological information

### overall assessment

Classification according to Regulation (EC) No. 1272/2008 [CLP]  
There is no information available on the preparation itself.  
Do not discharge into drains or rivers.

#### 12.1 Toxicity

Toxicological data are not available.

#### 12.2 Persistence and degradability

Toxicological data are not available.

#### 12.3 Bioaccumulative potential

Toxicological data are not available.

#### 12.4 Mobility in soil

Toxicological data are not available.

#### 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/ vPvB criteria according to REACH, annex XIII.

#### 12.6 Other adverse effects

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### Appropriate disposal / product

##### Recommendation

Do not allow to enter drains or watercourses. Waste and containers must be disposed of in a safe manner. Disposal in accordance with Directive 2008/98/EC on waste and hazardous waste.

##### Suggested list for waste codes/waste designations according to EAKV

080112 paint and varnish waste with the exception of those that fall under 080111

#### Packaging

##### Recommendation

Non-contaminated and empty packaging can be recycled. Containers that are not properly emptied are hazardous waste.

## SECTION 14: Transport information

**No dangerous goods in the sense of the transport regulations.**

#### 14.1 UN number

not applicable

#### 14.2 UN Proper Shipping Name

#### 14.3 Transport hazard class

not applicable

#### 14.4 Packing group

not applicable

#### 14.5 Environmental Hazards

Land transport (ADR/RID)

not applicable

Marine pollutant

not applicable

#### 14.6 Special precautions for users

Always transport in closed, upright and secure containers. Ensure people transporting the product know what to do in the event of an accident or spill.

Instructions for safe handling: see sections 6 - 8

**More information**

**Land Transport (ADR/RID)**

Tunnel Restriction Code -

**Sea transport (IMDG)**

EmS -No. not applicable

**Air transport (ICAO-TI / IATA-DGR)**

**14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code**  
not applicable

**SECTION 15: Regulatory information**

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**EU regulations**

**Industrial Emissions Directive 2010/75/EU**

VOC value (in g/L): < 0.1g/L

**National regulations**

**Notes on Restrictions on Employment**

Employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or breastfeeding mothers. Observe employment restrictions according to the Youth Employment Protection Act (94/33/EG).

**Water hazard class (WGK)**

1

**Industrial Safety Ordinance (BetrSichV)**

not applicable

**Technical Instructions Air (TA-Luft)**

**TA-Luft (2002) Chapter 5.2.5 Organic Substances**

In total , the following values are permitted in the exhaust gas

**Mass flow:** 0.50 kg/h

or

**mass concentration:** 50 mg/m<sup>3</sup>

not be exceeded.

**Other regulations, restrictions and prohibition ordinances**

Trade association rules (BGR)

BGR 190 "Use of breathing apparatus"

BGR 192 "Use of eye and face protection"

BGR 195 "Use of protective gloves"

**15.2 Chemical safety assessment**

Chemical safety assessments for substances in this preparation have not been carried out.

**SECTION 16: Other information**

**Full text of classification from Section 3:**

**Abbreviations and Acronyms**

For abbreviations and acronyms see ECHA: Guidance on information requirements and chemical safety assessment, Chapter R.20 (List of terms and abbreviations).

**Further information**

Classification according to Regulation (EC) No. 1272/2008 [CLP]

The information in this safety data sheet corresponds to our current state of knowledge as well as national and EU regulations. The product may not be used for any purpose other than that specified in Chapter 1 without written permission. It is always the user's responsibility to take all necessary measures to comply with the requirements set out in local rules and laws. The information in this safety data sheet describes the safety requirements of our product and does not represent any guarantee of product properties.
