

SURFACE CLEANER MPS

DESCRIPTION

SURFACE CLEANER MPS is a waterbased, low VOC cleaning agent that combines a pH neutral surfactant with dispersing agents and a mild abrasive. This cleaning agent has been especially developed to prepare and clean surfaces before application of the **MPS REFRESH**.

FEATURES AND PROPERTIES

- Optimal surface wetting properties
- Easy removal of loose material to obtain the perfect surface before using MPS refresh.
- Odour: pine
- Colour: greenish white
- pH: +/- 8
- VOC < 5%
- Viscosity: Brookfield sp.2/20rpm: < 400 cps
- Density: ± 1,15
- Water dilutable

APPLICATION

General: Before applying **MPS REFRESH**, the surface must be thoroughly cleaned so to have a sound and solid underground. **SURFACE CLEANER MPS** will easily remove all loose surface particles that were formed due to UV degradation of the material. At the same time it will also degrease the surface and give you the perfect preparation before the MPS REFRESH can be applied.

It can be applied as such, but diluting is possible to a maximum of 1 part **SURFACE CLEANER MPS** to 2 parts of water.

Application

1. Shake the product well before use.
2. Apply generously with a microfiber cloth and work the cleaner in by making circular movements.
3. Rinse the surface generously with water. All soap residues must be rinsed off.
4. Let the surface fully dry before starting to apply MPS REFRESH.
5. Apply a very thin coat of **MPS REFRESH** using a microfiber cloth. Work in a circular motion.

See also TDS of **MPS REFRESH**.

STORAGE

Store in dry conditions, in original packaging, at temperatures between 5 and 25°C.

The product is frost sensitive, use frost-free storage and transport.

Keep away from direct sunshine.

IMPORTANT NOTICE:

Our liability is limited to the product itself, its processing and application are excluded. Own tests must be carried out prior to each treatment. We reserve the right to change our products and their composition and to amend the associated technical notes without prior notice. Please ask our advisory service for the latest version of this technical note.
